PREFACE

With this volume, covering the four-year period 1925-1928, The Readers' Guide completes its twenty-eighth year. The three-year cumulative plan, which was adopted in 1915, was necessarily interrupted by the publication of the new edition of the United States Catalog.

The list of periodicals indexed has had few changes in the past four years. Such as were made are indicated in the list, together with data, as of December, 1928, regarding title pages, indexes, number of volumes per year, and editors.

The reports of the American Historical Association which contain abstracts of papers only, have not been indexed.

The Yearbook of the United States Department of Agriculture is now encyclopedic in character and the indexing has, therefore, been discontinued with the 1925 volume.

Grateful acknowledgement is made to all those whose assistance has contributed in any way to the completion of this volume, especially to Grace Nolan, Rita V. Louis, Frances Purcell, and Jeannette Connolly, who were members of the Readers' Guide staff throughout the four-year period.
